CRNA

June 2017 - Present (3 years 1 month)

Baptist Hospitals of Southeast Texas

7 years 4 months

Nursing Supervisor of Cardiovascular/Electrophysiology Cath Lab
March 2011 - August 2013 (2 years 6 months)

As nursing supervisor of the interventional cardiovascular and electrophysiology laboratory I collaborate with staff and cardiologist, oversee scheduled procedures to allow for a fast paced, highly efficient and effective flow of procedures, as well as supervise nursing staff and radiologic technicians. I also am involved in every procedure conducted in the cath lab, and assisting physicians with procedures and troubleshooting any problems that occur, while providing high quality care to acutely compromised patients. I am also a member of the Cardiovascular/Critical Care Committee, and responsible for presenting complications that arise in the cardiovascular cath lab to this committee, as well as presenting changes in hospital protocols for critically sick individuals.

Cath Lab RN

May 2006 - March 2011 (4 years 11 months)

As a registered nurse employed in the interventional cardiovascular and electrophysiology laboratory my responsibilities included, but are not limited to, providing quality care to critically sick individuals, monitoring various types of invasive procedures including (percutaneous transluminal coronary angioplasty, insertion of intra aortic balloon pumps, insertion of left ventricular assist devices i.e.: impella, insertion of swan-ganz catheters, peripheral transluminal angioplasty, ablations of the atrioventricular node, supraventricular tachycardia, atrial fibrillation, and ventricular tachycardia, and insertion of pacemakers, automated internal cardioverter defibrillators, and cardiac rhythm resynchronization devices). As being a nurse in the cath lab and caring for critically compromised patients, which required I have large

amount of advanced pharmacology knowledge including vasoactive drips, thrombotic, and anticoagulants.
