Dr. Mary Hanna

Rn, PhD, CEN at Mary N. Hanna
Ludington, Michigan

Summary

Creating a vision for all for the purpose of a new tomorrow in a world that transforms healing. Starting with the healers and extending within a global community. ~Healing the Healers~

My vision for the world is that family units stay together and share love, peace, and happiness. Families are creating moments in time living in a universe without war and conflict.

working in direct patient care, teaching, mentoring while conducting original research

My passions include teaching, precepting and mentoring nurses and allied health forces. I have practiced emergency nursing at all levels of trauma from rural settings to level one trauma centers affiliated with State Universities. I have taught clinical nursing in community college and at University level that allows me to stay involved in direct patient care and in a mentorship role. Travel nursing provides the freedom to practice and learn a variety of practice procedures from different perspectives. I also mentor graduate and doctorate level students. I obtained my PhD in the philosophy of nursing in 2020 completing a qualitative descriptive phenomenological study on MORAL DISTRESS EXPERIENCED BY LEVEL ONE TRAUMA NURSES: A PHENOMENOLOGICAL STUDY. My interest is in a combination of direct patient care, teaching, and research. I am working at being the best that I can be while serving in the profession that has helped to define who I am, as a professional nurse.<script type="text/javascript" src="https://platform.linkedin.com/badges/js/profile.js" async defer></script>

Experience

Mary N. Hanna
