Leadership

Denise Vermaat

Clinical Specialist/Nurse Leader

Boca Raton

Summary

My goal is to obtain as a Leader in Nursing Education. I possess over 20 years of pediatric and adult nursing in several specialty fields including pediatric cardiac intensive care, adult intensive care, pediatric intensive care, oncology, NICU, ER, and general pediatrics. I also possess several years of leadership experience including assistant nurse manager and charge nurse, as well as a Nurse Educator and Clinical Specialist.

With my experience and with my studies I can be an excellent leader and innovative educator. I want to drive nurses to reach and exceed their potentials. I believe in positive reinforcement and transformational leadership, involving all nurses to come together for a positive, uplifting, and exceptional working environment. This will in turn transform itself into to care we provide for our patients. I want employees to feel valued and I expect them to participate in the growth of the working environment. I look to maintain staff and help them to reach their fullest potentials. Nursing is not just a job, but a dedicated career. I want to help promote healthy lifestyles for children, adults, and their caregivers.
