# Scott Maiers RN

Independent Pruvit Promoter- Registered Nurse

Myrtle Beach, South Carolina

## Summary

I am a RN and finding a way to help people get healthy before they end up in one of the units I work in. Keto is going to change your life. It is the solution to many of our healthcare challenges. Have Type II diabetes? Keto! Metabolic Syndrome? Keto.. inflammation? Keto! High blood pressure Keto.. I went on this journey because I have always held onto fat and I fought with high blood pressure. 12 months Keto and I am down 50pounds and off blood pressure medicines.. I found Pruvit Ketones along the way and I believe in the product, it has helped me with the ketogenic lifestyle, curbing appetite and feeling great. This is why I decided to become an independent promoter of Pruvit. It works for me and I credit a lot of my success with keto to the NAT KETO//OS..

---
