Mineola, New York

Summary

Oncology nurse with a background in clinical trials, medical-surgical and critical acute care.

Experience

Memorial Sloan Kettering Cancer Center

Clinical Trials Nurse

November 2019 - Present (8 months)

Greater New York City Area

NYU Winthrop Hospital

1 year 6 months

Manager, Cancer Clinical Trials

May 2019 - October 2019 (6 months)

Mineola, NY

- * Managed and guided team of 8 RN research coordinators, 3 research data coordinators and 2 regulatory specialists for comprehensive adult and pediatric oncology/hematology research program
- * Coordinated all aspects of Phase I, II, and III oncology/hematology research trials
- * Assisted with new study implementation including feasibility reviews, internal evaluation, and site initiation visits including coordination of study opening across multiples sites
- * Worked with study monitors and clinical trials staff in resolving documentation and study implementation issues, developing corrective action plans when warranted to address opportunities for process improvement
- * Created and implemented policies and procedures for clinical trials department
- * Oriented and trained new employees to department
- * Participated in research-specific work group as part of hospital-wide implementation of new EMR system
- * Tracked records of study accruals and reported activity at regular intervals to department and hospital administration

Registered Nurse, Oncology/Hematology Associates

May 2018 - April 2019 (1 year)

Mineola, NY

Member of multidisciplinary team caring for patients within busy hematology/ oncology physician practice.

- * Assess patients during office visits and implement appropriate nursing interventions
- * Educate patients on diagnosis, treatment plan, medications and side effects and help guide them to additional resources as warranted
- * Triage incoming patient calls, assessing patient symptoms, complaints and concerns and coordinate response with nurse practitioner or physician assistant and attending physician
- * Administer subcutaneous injections and perform phlebotomy, including through use of central venous access devices
- * Obtain insurance authorizations for prescribed medications as required, assisting patients in finding financial support through charitable and manufacturer assistance programs

Weill Cornell Medicine

Research Nurse Specialist - Oncology

June 2016 - May 2018 (2 years)

Greater New York City Area

Coordinated care for patients considered for and participating in multiple clinical research studies within a busy outpatient GI medical oncology practice.

- * Assessed patient eligibility for inclusion in specific clinical trials, evaluating patient history and ensuring completion of appropriate baseline exams, imaging and laboratory testing
- * Assisted investigators in explaining protocol and study requirements, including investigational drug action and side effects, and ensuring informed consent was understood by patients and signed prior to initiation of study procedures
- * Assured strict adherence to study requirements by all personnel involved with patients, including drug administration, laboratory and pharmacokinetic testing and all necessary follow-up visits
- * Assessed patient response to study-specific treatments, implementing appropriate nursing interventions to any adverse events and performing follow-up assessments as required
- * Triage incoming patient calls, assessing patient symptoms, complaints and concerns and coordinated response with nurse practitioner, physician assistant and attending physician

* Ensured investigational drug agents were available and administered in accordance with protocols

Documented all study-related procedures and follow-up with patients in electronic medical record for investigators' and sponsors' analysis

St. Francis Hospital

3 years 3 months

Registered Nurse, Surgical ICU

August 2015 - June 2016 (11 months)

Managed nursing care for up to three critical-care patients on 20-bed intensive care unit including neurological, oncological, vascular and gastrointestinal surgery patients.

* Coordinated care for both mechanically ventilated and non-ventilated patients, performing regular assessments, administering medications and providing personal care

* Based on physician orders titrated vasopressive and other medications in response to patients' clinical condition

* Coordinated with medical staff, respiratory therapists, physical therapists, dietitians, social workers and case managers, modifying treatment plans and goals as indicated by patient response and conditions

* Educated patients and families on disease processes, treatment plans and goals, interventions, medications, post-discharge care and community resources

* Document patient care and education using Epic electronic medical record (EMR) system

* Participated in continuous improvement of hospital EMR system through Performance Improvement Committee and in nursing self-governance through Unit Based Council

Registered Nurse, Telemetry/Orthopedics

April 2013 - July 2015 (2 years 4 months)

Roslyn, NY

Managed nursing care for up to 7 patients on 38-bed medical-surgical/telemetry unit at 312-bed hospital.

- Provided direct patient care for medical and pre- and post-surgical patients requiring continuous telemetry monitoring

- Prioritized care and supervise work of nursing support staff

- Coordinated care with medical staff, respiratory and physical therapists, dietitians, social workers, and case managers, modifying treatment plans and goals as indicated by patient response and conditions

- Educated patients and families on disease processes, treatment plans and goals, interventions, medications, post-discharge care and community resources
- Documented patient care and education using Epic electronic medical record system
- Participated in nursing self-governance through Professional Development Council
- Recognized by peers and patients for providing outstanding care

Memphis Area Association of Realtors
Marketing & Communications Director
November 2006 - May 2010 (3 years 7 months)

Directed communications, marketing, and event planning for trade association serving the real estate industry, developing both internal and external campaigns. Maximized outreach and programs in face of significant membership decline and budget reductions.

- Developed both internal and external communication and marketing programs to keep membership engaged with association work and develop support from consumers for Realtor® services and expertise.
- Developed, executed, and analyzed regular membership surveys and focus groups, using findings to help redesign member publication to both reduce costs and provide enhanced member communication in areas desired.
- Supervised work of meetings and events coordinator, providing guidance and oversight for more than 15 events annually.

Air Line Pilots Association, Int'l
Senior Communications Specialist
October 2000 - October 2006 (6 years 1 month)

Created and executed communications programs during some of the most challenging times in the airline industry following September 11, 2001, to keep members engaged in and supportive of association's objectives.

- Managed development and evaluation of strategic plans, working closely with research firm to track communication effectiveness and audience perception. Members consistently gave association communications a 90%-plus approval rating.
- Designed and conducted communication and media training programs for association volunteers.
