# Marissa Gutierrez, MSN, RN, CNL

Registered Nurse at Zuckerberg San Francisco General Hospital and Trauma Center  
San Francisco

## Summary

Compassionate, driven, and bilingual (English/Spanish) New Graduate Registered Nurse with more than 4 years of healthcare experience serving patients of all ages in hospitals and clinical settings.

My education and diverse clinical experience have broadened my skillset and taught me to be a highly adaptable lifelong learner, and a team player to promote positive patient outcomes.

My passion is to serve my community by providing accessible and respectful patient-centered care while collaborating with the healthcare team to foster a therapeutic healing environment.

UC Davis Research Intern  
February 2012 - June 2012 (5 months)  
San Joaquin, CA

Conducted surveys to the families about their past medical history and eating habits at home, and translated the surveys to Spanish speaking families. Purpose of the study was to implement a community-based intervention that promotes healthy eating habits and physical activity among Latino children living in Central Valley, to help reduce childhood obesity rates and ethnic disparities. Research funded by the USDA Agricultural and Food Research Initiative
