Licensed Practical Nurse

Blake Gaylord

Licensed Practical Nurse at Integrity Medical Staffing, LLC
Cheshire, Massachusetts

Summary

I currently have been a Licensed Practical Nurse since March of 2015, with 3 years of it being a Travel Nurse and Co-Owner of a family-owned medical staffing agency. I've worked in 200 bed facilities as well as rural critical access hospitals in Alaska which included a facility in the Arctic Circle. I became an LPN at 19 years old and soon after opened up our family-owned business with my brother who is an RN and father who has a lengthy history in business management. Our business is different from any other agency because 2/3 owners are nurses and have worked at the facilities our staff will step foot in. Our desire to give Nurses and CNAs the pay they deserve while obtaining lifelong stories. Best of all, our company provides care to facilities in need of help. We are JCAHO accredited and continually push to further our knowledge and reach new goals.
