Critical Care Registered Nurse at St. Rose Hospital
Castro Valley, California

Summary

A highly committed and passionate registered nurse in an Intensive Care Unit in a cardiac receiving center. Dedicated to developing my skills and knowledge in critical care in my full time job, but looking to gain experience, and expand effective patient care knowledge in different settings as well. Highly interested in furthering my expertise in neonatal nursing, research, analytics, administration or nursing education.

Experience

St. Rose Hospital

Critical Care Registered Nurse

October 2018 - Present (1 year 10 months)

Hayward, CA

- Managed patients post- cardiac catheterization with strong background knowledge in arrhythmia management
- Provided care to patients post- cardiac arrest and implemented various protocols such as therapeutic hypothermia following ROSC and usage of neuromuscular blockade medications
- Skilled in monitoring patients undergoing moderate sedation at bedside while assisting MD with invasive procedures such as thoracentesis, endoscopy, etc.
- Monitored continuous cardiac rhythms, hemodynamic stability indicators such as CVP readings, bispectral index (BIS), electromyography EMG, and train-of-four (TOF) in patients requiring sedation/paralytics
- Experienced with titration of drips such as vasopressors, sedations, insulin or antiarrhythmic drugs, and care of patients with mechanical ventilation
