Diem) \*PACU & Pre~Op Nurse (Per Diem) \*CMRN (Per Diem)  
San Francisco Bay Area

## Summary

Wish list:

Peace, Love & Happiness

Faith:

What is meant for me will never pass me by...

A little about myself:

I graduated 5/2000, after attending, Orvis, School of Nursing, @ the  
University of NV, Reno.

I worked for a little over a year in Medical/Surgical/Oncology, where I  
gained a solid foundation, which has proven to be a huge foundation  
for my current Nursing Practice.

Today, I have 19+ years of nursing experience, primarily in High Risk  
OB, Maternal/Newborn Nursing, and in November of 2014, I began  
a new role as an RN/VN, OB specialist/Clinical & Theory/Simulation  
Instructor for Unitek College.

Recently, I returned to my hometown, after completing an Interim  
Management position in Turlock, CA. I am working per diem  
positions in out patient surgery, as well as at a local hospital in L&D,  
as I pursue a start~up idea, and research it's possible viability in the  
SF Bay Area.

I love learning, teaching, & sharing my nursing, life experiences, and  
general knowledge base, with RN/VN students, friends, family and  
colleagues.

My specialty and first love is High Risk OB, Teaching my patients  
and their families, how to care for their newborn, and most  
specifically how to create successful breastfeeding Mother's, while

considering age, socioeconomic factors, support, family size, demands on Mother, knowledge base, and assisting her in creating a, "Working Mom's," breastfeeding/pumping plan & nutritional menu, and meal planning, for optimal breast~milk production.

My hope is to make a difference in cultivating the next generation of highly skilled & well educated VN & RN's, through my love for OB & Evidence based nursing practice.

I continue to practice High~Risk OB, maintaining an up to date knowledge base, I can pass on to my students, patients, & simply because, being part of bringing new life into the world is an absolutely blessing at the end of the day!

I truly believe Nursing is the best career I could have chosen.  
#LOVE A NURSE!:)

---
