Charlie Kuhn

Travel Nurse at Atlas MedStaff

Reno, Nevada

Summary

After graduating with my ASN, Indiana University Hospital offered me a wonderful position on the Transplant Intensive Care Unit. I got to spend 4 years and gain experience in this high acuity, fast paced, ICU at Indiana University Hospital; I was proud to be a part of such an amazing, skilled, compassionate and hard working transplant team. I hope to find the same once I make my move to Reno Nevada. My current plans involve finishing out my contract at IU health. And continue to explore travel nurse opportunities as well as permanent jobs to gain experience with a variety of ICU patients and further my skill level as a Registered Nurse. Currently I am working towards my CCRN and will pursue my BSN.

Indiana University Hospital Transplant specializes in Liver, Pancreas, Kidney/Pancreas, Liver/Kidney, Kidney, Intestine, and Multi-Visceral transplants. The ICU manages patients that are pre-transplant, post-transplant, and those in multi-organ failure and sepsis. IU Health Transplant is one of the few transplant centers in the U.S. performing intestine and multi-visceral transplants involving more than one organ and with great outcomes.

IU Health is also among one of the top transplant programs in the nation according to the Organ Procurement and Transplantation Network (OPTN).

I now have 2 years experience in the Surgical Trauma ICU world as a Travel ICU RN. I have also 2 years experience in the Medical/ Neuro ICU. I have worked multiple Level 1 trauma centers around the US as well as level 2 and 3. I have gained wonderful experience thus far and continue to pursue new travel opportunities and currently considering permanent positions!

Currently on assignment in Indianapolis IN at my home hospital IU health University Hospital on the Medical ICU until September.
