Summary

Ambitious servant-leader. Transparent, organized, accountable. INTJ.

I enjoy building error-tolerant systems and integrating realistic behavioral economics into healthcare. Our two most precious assets in healthcare are Patients and Providers. Our delivery systems should serve both well!

I enjoy finding opportunities to deliver better healthcare by optimize failing processes or innovating better ways of doing business.

US Army Officer

Clinical Staff Nurse on a 20-bed inpatient Cardiac Step-down unit in a 243-bed Level II Trauma Center. Provides nursing care to critically ill patients, implementing the nursing process in accordance with professional standards. Collaborates with physicians and ancillary services to provide an interdisciplinary approach to meet the needs of patients and their family members. Provides detailed patient and family teaching and education. Serves as a clinical/educational resource for peers and subordinates. Actively participates in unit quality improvement, staff development and continuing education. Promotes a positive customer service atmosphere while respecting HIPPA and patient privacy. Leader in Madigan Army Medical Hospital's Patient CaringTouch System and unit performance improvement plans.
