Clinical Nurse Leader (CNL)

Kelly Ingram, MSN, RN, CNL

Registered Nurse at PIH Health

Seal Beach

Summary

My name is Kelly and I am a graduate of the University of San Francisco, School of Nursing and Health Professions. I graduated from the Master's Entry MSN program that emphasizes the integration of the Clinical Nurse Leader role into various healthcare microsystems. Previously, I earned a Bachelor's of Science degree from Northern Arizona University in the field of Public Health. Upon completion of my public health degree, I strived to be a more integral component in assisting individuals manage their acute and chronic illnesses, which led me to a career in nursing. I am currently working as an RN on a med/surg/tele oncology unit.

Experience

PIH Health

Registered Nurse

November 2018 - Present (1 year 10 months)

Whittier, California

Registered Nurse on a medical-oncology, telemetry floor.

CHOC Children's

Clinical Associate

January 2018 - November 2018 (11 months)

Orange County, California Area

Assume a full-patient load of approximately twelve patients per shift on the Surgical Unit. Regularly record intake and output, weight, height, abdominal girth, head circumference, urine dips, hemeoccult blood, and vital signs. Assist with activities of daily living, provide bed baths and linen changes, and assist with ambulation. Collaborate with various members of the healthcare team to report important patient updates, changes in condition and effectively communicate patient condition at change of shift.

Los Angeles County Department of Public Health

Intern

May 2016 - August 2016 (4 months)

Los Angeles, CA

Developed a public health program intended to decrease preterm birth rates for disproportionately affected women in Los Angeles County. Aided in community outreach and education programs for various populations in Los Angeles County. Created social media campaigns developed to increase program participation.
