Travel Nurse Pediatric Emergency Room at TRUSTED
HEALTHCARE LIMITED
Providence County

Summary

I am a travel emergency room nurse doing both adult and pediatrics. I have a love for technology (in the work environment) which can help make nursing more comprehensive. I am enjoying exploring interventional radiology as a new and exciting experience. I continue to explore educational opportunities to further my clinical knowledge and support the advancement of the nursing community. I am always looking for the job that will be challenging but extremely rewarding that pushes me to explore new aspects of the medical field.
