Staff RN
November 2018 - March 2019 (5 months)
United States

I was hired into a leadership position and moved my family from the west coast to the east coast.

Upon arrival I was informed that my manager had resigned, the department was being restructured, and my position was no longer available.

I worked as a staff nurse in a very undesirable situation while looking for a long term career opportunity.

Forsyth Medical Center

ED RN

January 2014 - November 2014 (11 months)

Winston Salem, NC

I was very blessed to have the opportunity to be a part of such a marvelous team.

My peers, management, the preceptors, and the patients made this experience joyous and fulfilling.

While at FMC I completed a 24 week internship in the ED. This included classroom education, training modules, and working full time in a fantastic facility. FMC's ED is an 81 bed free standing unit with its own lab and radiology departments. High acuity, high volume, and the best teammates a person could ask for.
