Rebekah Omoruyi

Registered Nurse at Texas Children's Hospital
Houston, Texas Area

Summary

Nursing is a very challenging and demanding career, but the long term satisfaction and rewards are worth it. I am more than excited to pursue a career that allows me to put my compassion for people to good use. This is a field that is made especially for dedicated, reliable, trusting individuals and I definitely fit the description.

Nothing gives me greater joy than to be able to assist my patients and their families when they are most vulnerable and through difficult times.

I am interested in securing a pediatric per diem position in California.
