Abstract TP391: Working Within a Stroke System of Care to Decrease Door to Transfer Times From Spoke to Hub

# Brett Keiling BSN,RN,CCRN-K

Director of Quality, Regulatory Compliance and Clinical Data Science at North Suburban Medical  
Westminster, Colorado

## Summary

Specialties: Critical Care Nursing, Neuroscience Nursing, Sepsis, Chest Pain, Quality, Clinical Data Analytics

## Experience

### North Suburban Medical

7 years 10 months

Director of Quality, Regulatory Compliance and Clinical Data Science  
January 2020 - Present (7 months)

Thornton, Colorado

Named 2020 Colorado Nightingale Luminary by the Colorado Nurses Foundation

### Manager of Quality and Regulatory Compliance

February 2018 - January 2020 (2 years)

Thornton, Colorado

Provides oversight for the facility's regulatory compliance program. This is implemented through the development and maintenance of an interdisciplinary regulatory readiness committee, frequent regulatory rounding, and education.

Coordinates and supports all regulatory survey activities including The Joint Commission, CMS, and state level programs.

Serves as the facility Sepsis Coordinator. Led the facility to become Colorado's first TJC Sepsis Certified facility. Provide program oversight through ongoing education, performance improvement activities and data review. Leads the facility Sepsis Improvement program. Saw a reduction septic shock mortality from 37% to 12% over a four year period.

Led chest pain and stroke service line quality improvement activities with oversight of Stroke and Chest Pain Coordinator. Oversaw the achievement of The AHA GWTG-Stroke Gold Plus with Target Stroke Honor Roll Elite Plus award in 2018.

Interim Director of Facilities Management  
January 2019 - April 2019 (4 months)  
Thornton, Colorado

Program Coordinator (Chest Pain, Sepsis, Stroke)  
October 2014 - February 2018 (3 years 5 months)  
Thornton, CO

- Team lead for the achievement and maintenance of Colorado's first Joint Commission Certified Sepsis Program.
- Facilitates the development, implementation and ongoing adherence of chest pain, sepsis, and stroke protocols/therapies.
- Collaborates with medical and hospital staff to provide multidisciplinary care to patients with the diagnosis of chest pain, sepsis, and stroke.
- Rounds with physicians and multidisciplinary team to review clinical data and treatment plan to improve patient outcomes and positively impact overall patient experience.
- Collaborates with physicians and staff in an effort to decrease mortality and length of stay.
- Provides ongoing education and clinical expertise to care team, patients, and families.
- Leads the interdisciplinary sepsis and stroke steering committees.
- Participates in STEMI/CV Council meetings.
- Collects and analyzes chest pain, sepsis, and stroke program patient data to assist with documentation, clinical care and improved outcomes.
- Provide clinical quality oversight for other facility quality initiatives including ventilator days reduction, readmission reduction, and ongoing survey readiness.
- Serves as a member of the Critical Care Committee.

Staff Nurse - ICU  
October 2012 - December 2014 (2 years 3 months)
