Dr. Catina West DNP MSN, RN,CV, NE BC

Director Of Nursing at HCA Healthcare
Houston, Texas Area

Summary

Over 25 years experience in the acute care setting. I utilize multiple leadership styles to create a healthy work environment which includes strategizing, envisioning, masterminding, creating, outlining and defining short and long term goals, detail plans, and contingencies. My goal is to put theories to work producing positive actions and ideas which can be integrated into a complex system. Most important is valuing caring and promoting human life.

Certifications: NE-BC, CVRN-BC

Specialties: EPIC. Trained in caring for patients on CVVHD, Cardiac Assist Devices (LVAD, Heart Mate, Bio-Med, IABP, and ECMO. Trained in caring for patients with neurological deficits and ICP, A-line, Swanz, and CVP drains.

Harris Health System

Clinical Nurse Manager

September 2010 - August 2012 (2 years)

I am committed to empowering nurses through professional development by way of evidence based research to improve quality patient care and promote healing of the mind, body, and soul. Currently managing a Short Stay Observation Unit and as of October 2010 opened a Post Cardiac Procedural Unit and 2012 opened Post Transfusion beds.

CHI St. Luke's Health

16 years 10 months

Patient Flow Supervisor

February 2005 - August 2010 (5 years 7 months)

Served as the main facilitator for the in-flow and out-flow of patients at the main facility of over 700 beds including four minor emergency facilities and the other hospitals within the system such as Woodlands, Sugarland, Lakeside etc. and any outside facilities seeking specialized services at the facility. Consistently displayed compassion, helpfulness, and consideration to patients, significant others, and guests. Worked collaboratively with colleagues, other departments, and disciplines to assure patients, customers and stakeholders needs and requests were met in a timely manner measured by patient satisfaction scores as defined by the Hospital Executive Council.

Registered Nurse

November 1993 - August 2010 (16 years 10 months)

Worked as an acute care Post Cardiovascular Intensive Care, Medical, and Neurology RN providing bedside care, treatment and clinical documentation for patients on cardiac and medical-surgical ICU's. Served as a Quality Control Chairperson, Preceptor, Schedule Coordinator, and Pain Management Liaison to a 50 bed unit and 20 bed unit collecting data internally on all selected core measures and quality standards generating charts and control data and disbursed it to the nursing staff for improvement measures.
