Toni M. Isaacs MSN, RN-BC

Ambulatory Care Services Manager-Harris Health System
Houston, Texas Area

Summary

People can do great things with good leadership!

I believe that my experience as a school nurse, nursing instructor, case manager, and nursing supervisor have prepared me to be a valuable Nursing Director.

I have proficient and strong verbal and written communication skills. I enjoy working in fast-paced environments and am capable of working through stressful situations. I love to take on challenges, and come up with positive, successful solutions. As a result of my ICU experience, I have the foresight to anticipate a potential problem and make corrections before it materializes. I am able to adapt to ever-changing environments, delegate, and multi-task.

It is my fundamental belief that effective teamwork will produce incredible results. I firmly believe it is important to think outside of the box and take risks when appropriate. I take pride in motivating others to always take advantage of positive opportunities especially as it relates to learning.
