Nursing Clinics Of North America-
Delerium in the ICU

Carol Crenshaw

Nursing Director
Jacksonville, Florida Area

Summary

2014 first place Bill Aston Award winner for LEAN project "Optimizing Nursing Workflow and Workload". This project saved 112 minutes of each nurses time spent searching for patient medications each shift

Participated in LEAN ventilator mortality team. Decreased ventilator mortality by 5% in 2014.

Implemented multidisciplinary daily rounds. This improved nurse-physician communication and helped build the team. Patient care was improved by streamlining communication of patient needs between all disciplines.

Co-authored article about causes and prevention of ICU delirium for Nursing Clinics of North America.

Designed and implemented Ebola unit. Core staff were trained in donning & doffing and care of Ebola patients. Unit was able to provide care for potential Ebola patients
