# Kathryn E Roberts, MSN, RN, CNS

Senior Nursing Executive

Greater Philadelphia Area

## Summary

Kathryn is a results-oriented, strategic Nursing executive who empowers organizations, leaders, teams and employees to thrive. She has proven expertise in translating research strategies into aligned clinical solutions that increase organizational efficiency and effectiveness, patient satisfaction, performance, and profitability.

Kathryn thrives in environments in which organizations want to excel, and she provides value by utilizing her deep clinical expertise to develop evidence-based processes and practice improvements to enhance clinical outcomes and patient and family satisfaction. Kathryn is committed to fostering excellence in the nursing profession and has served as Past President of the American Association of Critical Care Nurses.

Kathryn is a strong people developer who has been recognized throughout her career for a commitment to learning, growth and career development for members of her team. Kathryn is an inspiring leader who recognizes that engaged and motivated staff are a competitive advantage, and she has displayed a knack for finding creative ways to help her teams achieve their individual professional goals.
