Carondelet Health

Critical Care RN-Outcomes Analyst-Cardiac Cath Lab RN and Registry Site Manager

February 2001 - August 2015 (14 years 7 months)

Blue Springs, Missouri

ICU RN with Charge rotation. Registry Site Manager Analyst for NCDR Registries Cath/PCI and ACTION/GWTG's. Manage the databases for all patients undergoing Cardiac Catheterization. Perform detail chart audits for quality care measures as well as national benchmarking for cardiac care for meaningful use. Track, trend, benchmark, and identify opportunities for improvement from individual querying and studying the quarterly Executive Summary as well as the NCDR Dashboard. Provide direct feedback to Physicians and staff as well as EMS and nursing. Create and present PowerPoint presentations, create and run queries in SQL, provide trends and feedback to our administrative team and medical director to enhance patient outcomes and quality care. Work with nurse managers of ED, ICU, telemetry and Cardiac Rehab to implement changes where opportunities are identified. Coordinated the Chest Pain Center accreditation effort for Cycle III, Chest Pain Center Coordinator for submission of Cycle IV with the Society of Chest Pain Centers (now Society of Cardiovascular Patient Care) with accreditation in September of 2011 and continue to work with that initiative for ongoing cycles. Collaborated with cardiovascular service line to achieve Platinum recognition status for the ACTION Registry for AMI care. Implemented new collaboration efforts with EMS to support STEMI activation from the field and improve patient experiences and outcomes.
