Experience

Cypress Fairbanks Medical Center Hospital

10 years 9 months

Nurse Manager of Women's and Children's Services

February 2017 - Present (3 years 4 months)

Houston, Texas Area

- Oversight of two departments, caring for a total of forty-five beds:
- Mother-Baby Couplets with Gynecological Women's Care
- Pediatrics
- Manages four permanent Charge Nurses, sixty-five Registered Nurses, four Certified Nurse Assistants, and four Unit Secretaries.
- Responsible for directing and supervising functions and activities on the units such as the budget, providing leadership for the unit, rounding on every patient on the unit, hiring new employees, terminations, payroll, productivity, preparing work schedules, monitoring and evaluating work performance of staff, and continually expanding our staff members knowledge to better serve the community.
- Expanded Mother-Baby unit to add twenty beds on November 1, 2018, with the additional expansion of caring for Gynecological patients.
- 100% participation rate for 2018 Employee Engagement Survey for Pediatrics with 98% participation rate for Mother-Baby.
- Emerging Leaders Academy Graduate - December 12, 2018.
- DAISY Award Committee Co-Coordinator - 2018.
- Received Baby-Friendly Designation on September 19, 2017.

Head Charge Nurse

January 2016 - February 2017 (1 year 2 months)

Houston, Texas

- Responsible for the supervision of five units and up to 800 patients/month - pediatric, postpartum, newborn nursery, lactation, and childbirth education.
- Works with the director of nursing and the nurse manager in establishing specific goals such as determining work procedures, expediting workflow, communicating with other units, ensuring compliance with all unit operating policies and Joint Commission, and providing daily reports.
- Formulates actions plans, forms, and improvements that result in cost savings for the departments.
- Responds to emergencies, assesses the condition of the patient and decides on the type of medical attention required.
- Makes daily rounds of the units to ensure that nursing personnel are performing their work assignments in accordance with acceptable nursing standards. Makes certain patient needs are met, resolves any conflict, and ensures patient satisfaction.
- Responsible for directing the admission, discharge, and general flow of patients on the units. Informs nursing personnel of new admissions, their expected time of arrival, room assignment, etc. Ensures that the patient rooms are ready for new admissions.
- Provides education to the nursing staff on updated policies, procedures, and care of the patient.
- Prepares work schedules for the pediatric, postpartum, and newborn nursery nurses.
- Started the Baby Friendly Initiative project in 2016.
- Incorporated the transition from separate postpartum and nursery units to one Mother-Baby unit.
- Founded the Culture of Honor Committee and Process Improvement Committee for Mother-Baby and Pediatrics.
