Select Specialty Hospital

Registered Nurse

March 2010 - December 2010 (10 months)

Managed care for post-operative patients through their discharge. Developed patient care plans, including assessments, evaluations, and nursing diagnoses. Responsible for primary care, case management, and medication management. Ordered and read lab tests, x-rays, MRIs, ultrasounds, and EKGs. Supported patients with customized teaching tools. Assessed patients and documented patient histories. Assisted patients with daily functions, bathing, dressing, hygiene, and grooming. Assisted doctors with surgeries, non-invasive procedures, examinations, and treatment. Assisted and performed wound care.

Baptist Hospital

Registered Nurse Charge II

June 2002 - March 2010 (7 years 10 months)

Responsible for primary care, case management, and medication management for 5-6 patients on night shift. Managed patients on Telemetry and most were on some form of IV therapy for specific treatments. Assessed patients and documented patient histories. Evaluated patient care needs, prioritized treatment, and maintained patient flow. Evaluated health education needs and provided necessary training and instruction. Coordinated with doctors and other staff to develop care plans for patients. As charge RN on night shift, I was responsible for making schedule, arranging meeting with

management, orienting new employees, and precepting student nurses. In charge of the entire 30 bed unit with staff of RNs to students. Performed monthly inventory and maintain office and medical supply counts. Multi-tasked general office duties.
