Saint Luke's Health System
Staff Registered Nurse
June 2016 - August 2017 (1 year 3 months)
Kansas City, Missouri

Saint Luke's Mid America Heart Institute offers the most comprehensive care in Kansas City. We are the only regional facility providing the full range of cardiovascular services, from prevention to heart transplantation.

As a level I, Magnet Designated* facility, we are the #1 heart care providers in Kansas City. In addition, U.S. News & World ranks us 20th Nationally for Cardiology and Heart Surgery.

Staff nurse that demonstrates highly advanced skills in patient assessment/intervention, teamwork, assertiveness and crisis management.

Delivers high quality patient-focused health care services that meet the assessed and individually planned needs and desires of all patients and their families who are recovering from various cardiovascular/thoracic surgical procedures.

Our Lady of the Lake
2 years 2 months
ICU Nurse Resident
April 2015 - May 2016 (1 year 2 months)
Baton Rouge, Louisiana

As a new graduate RN, I completed an initial 24 week ICU nurse residency program at this level II, Magnet designated teaching facility. Complete foundational exposure totaled over 2200+ hours of bedside care with patients in various Adult Critical Care units; SICU, TNCC, MICU, Universal Cardiac ICU.

Demonstrated highly advanced skills in patient assessment/intervention, teamwork, assertiveness and crisis management.

Delivered high quality patient-focused health care services that meet the assessed and individually planned needs and desires of all patients and their families who suffer from various health deviations.

Universal Cardiac ICU (24 bed): Provided cardiac progressive care to patients with a variety of diagnoses, including coronary artery disease, congestive heart failure, myocardial infarction, angina and arrhythmias. Post-operative care is provided to patients that have undergone open heart surgery, heart catheterization/angioplasty, stents, and placement of pacemakers and defibrillators.

Surgical ICU (24 bed) : Provided care for critically ill adult patients who are recovering from General surgical services provided by various surgeon groups (Neuro, GI, ENT, Vascular, Ortho, OMFS).

Trauma-Neuro CC (12 bed): Provided care for patients who have been involved in multi-system trauma, requiring specialized neurological surgeries and interventions.

Medical ICU (24 bed): Provided care for critically ill patients, common diagnoses include multi-system failure, liver failure, GI bleed, sepsis, respiratory failure (especially those with COPD exacerbation, asthma, and pneumonia), infectious diseases, diabetic ketoacidosis, post cardiac and respiratory arrests, and cancer.

Medical ICU Nurse Tech

April 2014 - April 2015 (1 year 1 month)

Baton Rouge, Louisiana

Performed various patient care activities and related nonprofessional services necessary in caring for the personal needs and comfort of patients. Also assists with patient bathing, feeding, and preparation for treatment, assessing and recording vital signs, changing bed linen, preparing treatment trays and other supplies, and assisted nursing service personnel with a variety of other patient care duties that I have verified competencies in. Relied on establish guidelines to accomplish tasks, while working under close supervision of the nurse.

Proven personal competencies with but not limited to: initiating IVs, NG tubes, OG tubes, Foley catheters, hemodynamic monitoring, external ventricular drains/ICP monitoring, trach care/suctioning, Oral/IV medication administration.
