Abigail Patrick

Registered Nurse

Washington D.C. Metro Area

Summary

As a compassionate and goal oriented individual, I believe my organizational, interpersonal, and creative skills make me an outstanding registered nurse. As a graduate of Chamberlain College of Nursing, and RN SuperUser at Inova, I look forward to opportunities that showcase the knowledge I've gained during the nursing program, Inova and Holycross Hospital. Facilities such as Inova Fairfax Hospital, University of Maryland Medical Center and Howard County General Hospital under the John's Hopkins Medicine influenced my critical thinking strategies in application of the nursing process, collaborative team work efforts, and communication skills. I am able to demonstrate a holistic approach by considering physical, psychosocial, socio-culture, development and spiritual factors for my patients. These skills coupled with patience, excellent customer service, effective communication and empathy are what I offer as a Registered Nurse.

Experience

The George Washington University Hospital

Case Management Nurse

November 2019 - Present (9 months)

Utilization Review- The Case Manager coordinates, negotiates, manages and implements the care of complex patients to facilitate achievement of quality and cost-effective patient outcomes.
