Heidi Bonetti

I'm the nurse you want to have; compassionate, competent, no BS!
Dallas/Fort Worth Area

Summary

Almost 15 years experience working in various acute and long term acute hospital settings. I have a lot of supervisory experience but prefer hands-on, bedside patient interaction to management. I lead a healthy, active lifestyle, and believe nutrition and mental health are key factors in preventing and curing disease. I'm a Reiki Master and Holographic Sound practitioner and would love to see more holistic interventions taught and implemented within our healthcare system. If you are a hospital administrator or owner and want to create something new and exciting, I'm your man!

Experience

Northern Cheyenne Tribe

Public Health Nurse

March 2020 - Present (4 months)

Lame Deer, Montana, United States

Although Covid-19 has thwarted our efforts, I will be back to resume my holistic approach using Reiki energy healing and one-on-one health coaching (amongst other therapies), to improve the general health and well-being of the Cheyenne people who make up this community.
