Clinical Chief Nurse periOperative Services. Most recent accomplishments include: held backfill OR Staff position, at Basset Army Community Hospital. Consultant in successful transfer of responsibility from French to US led multinational Role 2 hospital in North Kabul Area International Airport serving 32 NATO nations' service members. Subsequently became the Director of Surgical Services of this facility. Previously, assigned as Afghan VIP case manager to coordinate entry and exist from NKAIA proper, care at the Role 2 and safe transfer to higher level of care as condition dictates for the local national patients to various NATO facilities to include US and Pakistan. Between deployments, continue to serve as the driving force for robust clinical skills traing in both hospital and field settings.

Madigan Army Medical Center
Assistant Head Nurse, Operating Room
September 2011 - September 2013 (2 years 1 month)
Fort Lewis, Washington

Efficient OR utilization, maintained above 97% for entire Army Medical Command along with 91+% compliance with use of standardized medical material for Madigan per year goal as one of the clinical trials centers for 100 items identified by the Defense Health Agency as most commonly used item for the Tri-Service. Coordinate and rally stake holders for 100% participation to provide constructive feedback and methodology designed to elicit accurate data, which was accepted by Defense Health for future clinical trials. Impactful to working new moms by bringing hospital grade breast pumps as added benefit provided by Tri-Care. This initiative increased mom and baby bonding which is shown to improve immune system, lower stress for both mom and baby. The long term positive effect for future generations of American children is improved overall health, better learning and decreased anxiety disorders associated with altered bonding experience.

Womack Army Medical Center
periOperative Registered Nurse
January 2003 - 2008 (5 years)
Fort Bragg, North Carolina

Served as the lead nurse service coordinator for Podiatry and Process Improvement for Sterility Assurance program and medical logistics

standardization clinical trials. Deployed with 14th Combat Support Hospital in 2006 with subsequent assignment to Farah Provincial Reconstruction Team as Blood administration nurse for Naval Aid Station.
