Jennifer Giangiulio RN, BSN, OCN

Oncology Registered Nurse
Philadelphia, Pennsylvania

Summary

Experienced Registered Nurse with 14 years experience; demonstrated history of working in the hospital & health care industry. Strong experience and professionally skilled in Nurse Navigation, Medical-Surgical, Oncology, Chemotherapy, and Healthcare. OCN and BCLS certified.

Experience

Penn Medicine, University of Pennsylvania Health System
Breast Cancer Nurse Navigator
February 2016 - June 2019 (3 years 5 months)
Greater Philadelphia Area

The Nurse Navigator functions as an advocate, interpreter, educator and counselor for the oncology patient, their family, and referring public. The nurse navigator is responsible for ensuring patients with an oncology diagnosis receive quality and comprehensive coordinated services. The nurse navigator coordinates care throughout the care continuum in collaboration with the multidisciplinary team.

Merck
Oncology Clinical Nurse Educator
July 2014 - February 2016 (1 year 8 months)
NJ/Philadelphia

- Provided nursing in-services using approved educational materials and used this as an added touch point with customers; Educating nursing staff, physicians and pharmacists.
- Continued to develop relationships with nurses and staff throughout my territory and help support the sales team.
- Experience in building customer relationships with key nursing organizations, targeted accounts, ONS, and other identified key customers.

- Actively participated in the product launch of a new Immunotherapy drug Keytruda.
- Communicate and follow-up with nursing and office staff on infusions, challenges and patient needs; Ensure the ongoing education of nurses to help them better manage immune related side effects and effectively teach their patients.
- Help nursing staff achieve better patient outcomes and provide insight on best practices by providing training and follow-up as needed.
- Territory consisted of NJ, Philadelphia and SE PA.
