Eunice Angela Fulgueras

Registered Nurse at Houston Methodist
Greater Houston

Summary

I am a compassionate healthcare provider with strong clinical skills. As a Daisy awardee, I am driven and motivated to provide unparalleled and quality patient care.

I am inclined to expand my skill set in critical care by titrating medication such as pressors and sedatives, caring for vented patients, post-surgical care, fresh transplants, ECMO, LVADs, and CRRT. While serving quality patient-centered care to make a difference in my patients' lives.

Experience

Houston Methodist

Operating Room Nurse

June 2018 - Present (2 years 3 months)

- Volunteered to cross-train in Covid ICU. Has exposure setting up CRRT, ECMO cannulation, chest tube dressing change, monitored vented patients, managed tube feeds, obtained blood draws, prepared arterial lines, initiated IV therapy, and assisted in transfers and new admits.
- Well-rounded in scrubbing and circulator roles in ENT, Plastics, Ophthalmology and pediatric cases.
- Closely monitors vital signs, performs thorough assessments, medication administration, and communicates with surgical team.
- Works closely with the anesthesia team during intubation, difficult airways, jet ventilation, flexible bronchoscopy, central line insertion, blood transfusion, and sending ABGs and iStat.
- Proactive during intubation, monitors FiO2 levels during tracheostomies, reinforces fresh trach precautions, and collaborates with ICU nurse and respiratory therapist.
- Assists in assessing nerve monitoring systems and additional need for paralytics and sedation.

- Responds in emergency airways or a sudden change of hemodynamic status (malignant hypothermia, bronchospasm, desaturation, atelectasis, dysrhythmias, or acute hypotension).
- Trained in aseptic adherence; setting up lasers, balloon dilators, fusion-imaging guidance, robotic assistance, drains, wound vacs, and tourniquets.
- Provides education and emotional support to anxious patients and family.
- Aids PACU in recovering patients or pre-op workup.

HCA

Med-Surg Registered Nurse

February 2017 - May 2018 (1 year 4 months)

West Houston Medical Center

- Assessed, planned, and managed treatments in an acute care unit with a 52-bed capacity.
- Skilled in running rapid responses, code blues, and code sepsis.
- Facilitated central line care and the prevention of CLABSI.
- Initiated fecal waste management systems, Foley catheters, Dobhoffs, NG tubes, CBI; maintained colostomies, ileostomies, and PEG tubes.
- Administered blood transfusions and monitored for adverse reactions.

De la Salle University Medical Center

Intensive Care Nurse Intern

January 2016 - December 2016 (1 year)

Philippines

- Administered and titrated IV drips under supervision.
- Continuously assessed hemodynamics and level of mental status.
- Performed endotracheal suction and monitored patient's tolerance from weaning off ventilator.
- Assisted in running code blues in a calm and collected manner.
- Experienced in caring for:
 - SVT, CABG, STEMI, congenital heart defects
 - Sphenoidal resection, hydrocephalus, skull fracture, glioblastoma
 - Myasthenia Gravis, MS, SCI, Subarachnoid hemorrhage
 - ARDs, Pulmonary edema and embolism

Education

De la Salle Health Sciences Institute

Bachelor's Degree, Registered Nursing/Registered Nurse · (2012 - 2016)
