Melissa Acevedo

Pediatric Critical Care Resource Team at UCSF Medical Center
Miami/Fort Lauderdale Area

Summary

My goal is to grow professionally as a nurse by utilizing the experience I have gained from my clinical rotations and educational background. My experiences have allowed me to achieve strong clinical skills, develop a good rapport with clients and their families, and accomplish independence by learning how to deliver total patient care to multiple patients with the use of effective time-management and critical thinking skills. I will use my bilingual skills in order to deliver quality patient care to a diverse community.

My clinical rotations are:

Pediatric Referral Unit/Pediatric Transplant Surgical Unit: Holtz Children's Hospital - 200 hours

- Deliver total patient care to five assigned patients while working with increasing levels of independence under the supervision of a Registered Nurse.
- Obtained experience with burn wound care, central lines, intravenous line insertion

Pediatric Cardiac Intensive Care Unit: Miami Children's Hospital - 75 hours

Labor and Delivery: Baptist Hospital of Miami - 75 hours

Community Health: Boys & Girls Club of Miami-Dade - 75 hours

Medical-Surgical: South Miami Hospital - 225 hours

Medical-Surgical: Palmetto General Hospital - 225 hours

Cardiac Telemetry: Aventura Hospital & Medical Center - 150 hours

Long-Term Care Facility: Jackson Memorial Purdue Medical Center - 225 Hours

Psychiatric Nursing: South Florida State Hospital - 75 Hours

Experience

UCSF Medical Center
