Experience

Air Methods

Flight Nurse

February 2016 - Present (4 years 5 months)

New York

- AS350, Bell407, Pilatus PC-12, EC135/EC145.
- Night Vision Goggle qualified and current.

Provide critical care pre-hospital/inter-facility assessments and interventions with continual patient treatment and evaluation.

Transport and manage critically ill patients with time-sensitive or highly complex medical conditions from a hospital or prehospital to a higher level of care while offering an extensive array of medical management including advanced hemodynamic monitoring, advanced critical care pharmacology, advanced airway management including rapid sequence intubation, surgical airways, ventilator management, and balloon pump management.

Comfortable with complex decision making supported by guidelines, knowledge, and awareness of when to involve a Medical Director to provide advanced, and safe care for a full patient spectrum including neonates through adults, while managing medical, obstetrics, and trauma patients.

Skills include:

RSI

Surgical cricothyrotomy

Needle cricothyrotomy

EZ IO

Needle Decompression

Faxton St. Luke's Healthcare

ICU - Critical Care RN

November 2010 - Present (9 years 8 months)

Utica, New York Area

ICU: Full time until 2016, current per diem

ED: Per Diem - 2015

Transitional Care Coordinator: June 2012 - June 2013

Provide highly specialized care for 1-3 patients requiring a maximum advanced level of medical attention including management and titration of multiple critical IV drips, telemetry, ventilators, sedation, arterial/CVP lines, ICP monitoring/ drains, therapeutic hypothermia, balloon pump monitoring, and assisting with bedside procedures (bronchoscopy/endoscopy, chest tube insertion, intubation, etc).

Comfortable with clinical decision making based on pathophysiology, blood-gas analysis, lab work and hemodynamic parameters.

Participate on the Rapid Response and Code Teams.

Maintain a commitment to quality, safety and clinical excellence utilizing a Relationship-Based Care model collaborating with the patient, family, physicians and interdisciplinary team.

SUNY Upstate Medical University Hospital

Registered Nurse

January 2010 - November 2010 (11 months)
