ALERT Nurse at NYU Winthrop Hospital

Greater New York City Area

Summary

Highly motivated healthcare professional who seeks to constantly learn and advance my clinical practice. A strong supporter of continuous education and attending conferences, evidence based practice in healthcare, reading literature on the latest trends/guidelines, and frequent training. I have a strong focus on resuscitation, critical care medicine, and acute care in the pre-hospital setting.

Experience

NYU Winthrop Hospital

5 years 11 months

ALERT Nurse

October 2018 - Present (1 year 10 months)

Clinical Alert Team

Serve as an expert member of the: Adult Cardiopulmonary Arrest Team, Rapid Response Team, Stroke Team, Obstetric Hemorrhage Team, Maternal Hypertensive Crisis Team, Behavioral Emergency Response Team, Cool Team and as a clinical and educational resource for nursing staff. Provides care and education to patients and their families with medically complex diagnoses. Collaborates with interdisciplinary teams to improve patient outcomes. Leads initiatives with emphasis on nursing practice and clinical standards to maximize quality and patient safety.

Staff Nurse

September 2015 - September 2018 (3 years 1 month)

Emergency Department

Use my knowledge, education, and training to collaborate with HCPs to provide medical care to a variety of patients. My ED-specific training allows me to quickly and accurately assess patients, prioritize them accordingly based on patient presentation and ESI level, and anticipate specific treatment plans based on patient complaint and/or symptomatology. Proficient in safe

medication administration, delegation of tasks to ancillary staff, working in high-stress environments, working as a team, and communicating effectively with patients and colleagues.

Nurse Fellow
September 2014 - August 2015 (1 year)
Emergency Department

A competitive new graduate program that has a didactic approach, classroom and clinical rotations, to create highly skilled emergency medicine nurses who can succeed in a fast-paced New York State designated Level 1 trauma center, Acute Stroke Center, and STEMI receiving center. A large proportion of clinical was spent in cardiothoracic, surgical, medical, neurological, and pediatric ICU. The final 16-weeks of the fellowship was spent training in the emergency department under the guidance of a preceptor. Classroom was held on a weekly basis.

Molloy College
AcE Program Tutor
October 2014 - December 2015 (1 year 3 months)

The Academic Enrichment Program (AcE) prepares students for academic success through remediation and supplemental help in order to provide reinforcement or clarification in particular aspects of coursework. Students are required to commit to AcE for the entire duration of their course/s, benefiting greatly because of the strong rapport and relationship that is developed with their tutor throughout the semester.

My focus is on nursing coursework and mentoring current nursing students. I tutor a variety of classes that range from freshman level 100 to senior level 400 coursework.

South Nassau Communities Hospital
Unit Clerk
November 2010 - September 2014 (3 years 11 months)

Binghamton University
Marketing Intern
January 2010 - May 2010 (5 months)

American Heart Association | American Stroke Association
